## CHALLENGE N°18 - CLEANWALK/COUR

Pick up trash and help the planet

Volunteer to help next time 😊

### Why this challenge?

Do a **cleanwalk** or a plogging session (jogging+ collecting waste on the way). Have you heard about **plogging** before? 💡 It's jogging while picking up the waste you find on your way. So if you want to combine sports and action for the planet, this is the winning combo! 🏃♀️

Waste thrown into Nature pollutes the soil, disturbs animals and plants and can eventually pollute groundwater 😞

For example, a plastic bag takes a hundred years to degrade and a cigarette can pollute up to 1056,7pt (=500L) of water.

So by picking up trash you're doing a great gesture for Nature 😊

**CLEAN COUR**

Tu en as assez des débris qui traînent ?  
Tu en as assez de voir la cour devenir un dépotoir ?

Alors viens participer à la 3ème clean cour de l'année

**Mardi 28 Mars**

**MICHE**  
Amey Haut-Saône

10h : Clean cour 6-5  
RDV dans la cour des 6<sup>e</sup>-5<sup>e</sup>

12h30 : Clean cour 4-3  
RDV devant le préau des 4<sup>e</sup>-3<sup>e</sup>

14h45 : Clean cour Primaire  
RDV dans la cour du primaire

## CHALLENGE N° 14- LOVE LETTER/BREAK UP LETTER

Write a love letter to something beneficial for the planet (bicycle, vegetable, garden...)

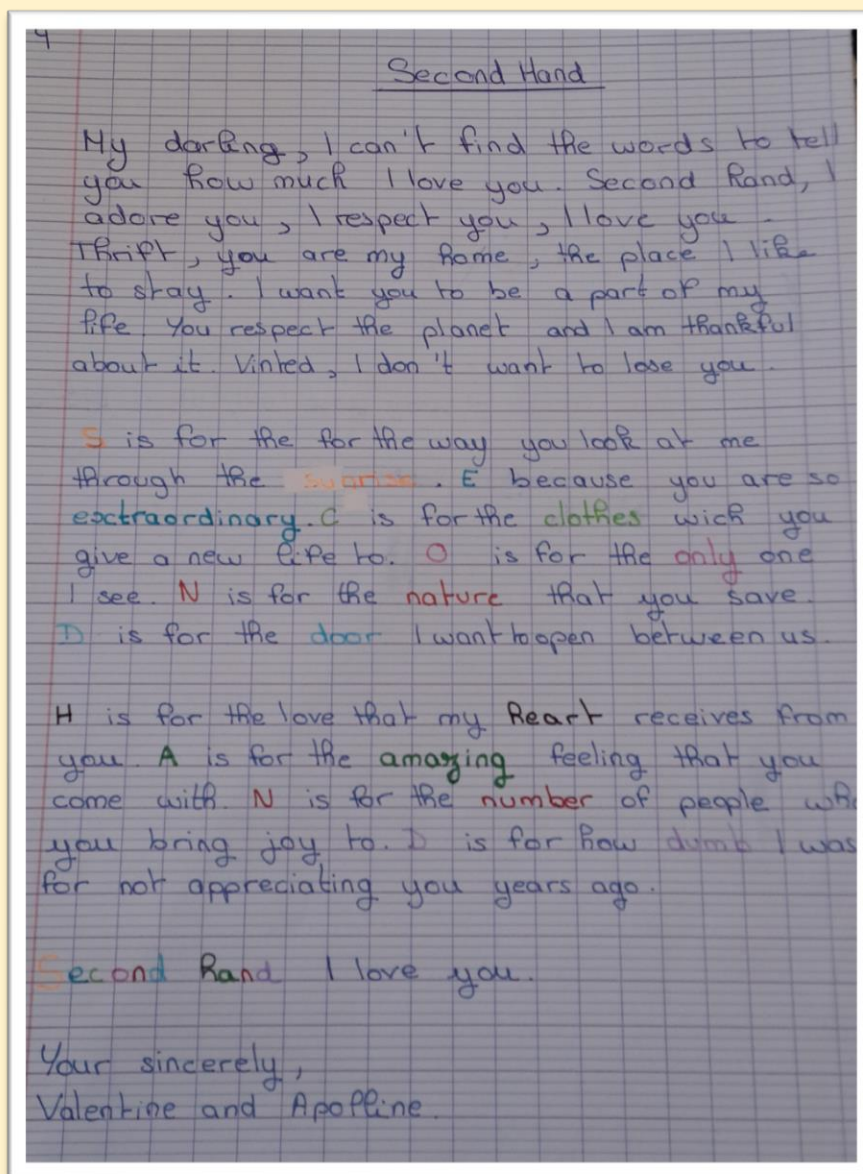

OR

conversely a "break-up" letter to something negative (fast food, plane,...) and share it!

Why this challenge?

Formalizing and making your feelings official by writing them can facilitate taking action!

More letters can be read in the school library ..in English !

## CHALLENGE N°18 - SNACKTIME

### Cakes without chocolate

(Just like you, we love chocolate but are you aware that cocoa farming is causing deforestation)

Tuesday 28th of march  
cake sale in 4e-3e play ground.

**CAKE WITHOUT CHOCOLATE**

**CAKE SALE!!!**

**We want to limit pollution!!!!**

Why cakes without chocolate???

Chocolate pollutes the planet

We have to import the chocolate from "Cote D'Ivoire", from Ghana, Indonesia, Nigeria, Ecuador etc...

To import the chocolate, boats are polluting oceans.

To grow cocoa, we must cut trees. A lot of deforestation is due to the cocoa plantation.

Packaging of chocolate needs a lot of plastic and cardboard.

Don't worry!!  
Our cakes will be yummy!!!

Thanks to the money we made, we will go to a curry house in London and have a vegetarian dish! Sorry Mrs Estrangin ...Environment is comes first 😊

Livestock farming is responsible for 15% of greenhouse gas emissions linked to human activities.

**Challenge N°4 (Vegetarian dish !)**

## CHALLENGE N°7 - TOGETHER FOR THE PLANET

Our school is in ecological transition....it is just the beginning 😊

Banner made by 4 PL with used /damaged sheets of paper

Why this challenge?

To raise awareness and to encourage you to join the cause...
